

Joint Action for Sustainable Development Participation Pledge

A sustainable society can only be achieved together.

Therefore, we adopt the principle of sustainable development, the United Nations' 17 Sustainable Development Goals (SDGs) and the goals of the German Sustainable Development Strategy as the guiding principles for our organisation.

With our registered activities we – organisations from politics, business, academia and civil society – will play our part in the sustainability transition and will promote the achievement of important sustainability targets under the umbrella of the Joint Action for Sustainable Development.

We consider the following mission statement of the Joint Action for Sustainable Development:

- We respect the universal human rights enshrined in the Universal Declaration of Human Rights.
- We advocate and act in accordance with core democratic and constitutional values and oppose all forms of corruption.
- We advocate social justice, good work and fair pay, encourage diversity and inclusion and take a stand against all forms of discrimination.
- We contribute to the achievement of the Paris Agreement, protect the environment and use resources sustainably to protect planetary boundaries.
- We use renewable and reduce the use of fossil energies.
- We aspire to work together to jointly shape solutions for sustainable development.

As the platform operator, Engagement Global gGmbH reserves the right to ban actors from the online platform on a temporary or permanent basis who fail to comply with the guidelines or who express themselves on the platform in an inappropriate manner. Any form of discrimination or extremist ideas are incompatible with the Joint Action's guidelines.
